

## Thanks for taking a look at my CV

I'm a designer and web developer based in Birmingham, who also dabbles in art and illustration.

I'm usually tapping away at web projects, mostly PHP and front-end work with .Net.

My day job includes designing websites in Photoshop, slicing and dicing web visuals into valid XHTML and CSS, PHP code, developing WordPress themes and plugins, HTML templates for other content management systems including Drupal, Umbraco, Zen Cart, osCommerce, etc., designing and producing HTML emails, web banners and a bit of Flash and JavaScript.

I also enjoy print, illustration and art, whether using InDesign, Illustrator or oil on canvas.

Please take a look at [www.peteinnes.com](http://www.peteinnes.com) to see my portfolio.

## Skills

My preferred development tools are XHTML, CSS, PHP, MySQL, JavaScript and Open Source Web Frameworks - for example WordPress, Drupal, Joomla, Zen Cart and osCommerce.

I also do .Net front-end design and development, HTML emails, Flash and presentations.
